

## Chapter 2: Situation Analysis

### Table1: Important Primary Indicators of Health Status

The United Republic of Tanzania

#### Council : Arusha CC

SN	Indicator	No of death in health facilities	No. of deaths in the community	Total number of deaths	Rate	
					District	National
1	Maternal mortality rate	30	0	30	142.57	454
2	Neonatal deaths rate	485	0	485	2,304.91	26
3	Infant mortality rate	555	0	555	2,637.58	51
4	Under5 mortality rate	658	0	658	3,127.08	81
	Total	1,728	0	1,728	8,212.14	612

Comments : Maternal Mortality rate increased from 96/100,000 (2015) to 143/100,000 live birth. Under-five Mortality Rate decreased from 16/1,000 (2015) to 7/1,000 live birth. Infant Mortality Rate reduced from 31/1000 to 26/1000 livebirth while Neonatal Mortality Rate remained constant at 23/1,000 live birth. There is a challenge in getting information of deaths occurring in the community.
